Key

Who we are	How we organize ourselves	Where are we in time and place	How the world works	How we express ourselves	How we share the planet
An inquiry into the nature of the self; of our beliefs and values; of personal, physical, mental, social and spiritual health; human relationships including families, friends, communities and cultures; rights and responsibilities; of what it means to be human.	An inquiry into the interconnectedness of human-made systems and communities; the structure and function of organizations; societal decision-making; economic activities and their impact on humankind and the environment.	An inquiry into orientation in place and time; our personal histories; homes and journeys; the discoveries; explorations and migrations of humankind; the relationship between interconnectedness of individuals and civilizations, from global and local perspectives.	An inquiry into the natural world and its laws; the interaction between the natural world(physical and biological) and human societies; how human use their understanding of the scientific principles; the impact of scientific and technological advances on society and the environment	An inquiry into the ways in which we discover and express idea, feelings, nature, culture, beliefs, and values; the ways in which we reflect on, extend and enjoy our creativity; our appreciation of the aesthetics	An inquiry into our rights and responsibilities in the struggle to share finite resources with other people and other living things; communities and the relationships within and between them, access to equal opportunities; peace and conflict resolution.
